Mrs. W. H. Hughes fell and dislocated her hip which is giving her considerable pain.

There will be preaching at the Baptist church Sunday morning and evening, by the pastor, Rev. O. P. Push.

Read what Mr. H. V. Bastin says in his advertisement on page 4 in regard to the creamery. Watch it each week. He will interest you.

Messrs. Henry & Kennedy, representatives of Golden & Flora, Richmond, Ky., dealers in monuments, will soon erect a handsome monument at a cost of \$2,000, over the remains of the late W. J. Gillespie, in Lancaster cemetery.

Mr. E. H. Walker who had an operation performed some weeks ago, has gone to Norton Infirmary, Louisville, accompanied by his physician Dr. J. B. Kinnaird. His friends hope for his speedy recovery.

Mr. Shelby L. Allen, of LaGrange, won the automobile in the Times Proverb Contest, solving 56 out of 57 proverbs. He is a son-in-law of J. R. Mount of this city, who claims that his intelligence is due to the relationship.

Base Ball.

The Lancaster boys will play Harrodsburg on this Friday afternoon, May 28th. They will play two games, the first being called at 2 p. m. We are expecting a very close game, and from all reports the crowd will be as large as last Friday.

Court Day.

Monday was the busiest court for many years in Lancaster. There was a very small crowd owing to the farmers being so busy. Little stock was sold and but little offered. Capt. Am Bourne reports a good crowd at the sale of Mr. Geo. Evans, deceased, and that the household goods brought good prices. Five shares of Garrard Bank & Trust Co., stock brought \$105 each, and two shares in Kensington Hotel brought \$12.50 each.

Guy.

Mr. Andrew Guyn died at his home just over the Madison line, after a gradual decline, aged 90 years. He leaves two sons and two granddaughters. He was popular and highly esteemed, being affectionately known as "Father Guyn," and was a strong advocate of prohibition, contributing largely from his ample means to temperance and other worthy and charitable causes. Mr. Guyn had been a faithful member of New Hope church for many years. The funeral services were conducted at the residence by Rev. Kerr, after which the remains were brought to Lancaster for burial.

The Ladies Aid Society will meet Saturday afternoon with Mrs. Rebecca West, on Danville street.

The lot sale, by Hughes, Florence and McCarty, at Stanford, was a success in every sense.

Hon. S. D. Cochran is preparing to build a magnificent residence on the farm which he recently purchased near town.

Services at Lancaster Methodist Church next Sunday morning and night by Dr. E. H. Pearce, Pastor. All invited.

M. D. Hughes has received the funds to pay the expenses of the last primary election, and claims will be paid when presented to him.

Mrs. Dillon Found Dead.

At press hour we learn of the sudden death of Mrs. Elizabeth Dillon, relict of Capt. Boston Dillon, she being found dead in her bed Thursday morning. She had been in poor health for many months, was about 70 years old, and well known in the community.

Summer School.

We are delighted to learn that a Summer School for teachers will be in progress at Richmond during June and July. This school was established expressly for the teachers of the state and is quite a credit to the remarkable sentiment in favor of better trained teachers. We suggest that every teacher of a graded or high school should attend this session in preparation for next year's work.

Blue Grass Creamery.

At a meeting of the stock holders of the Blue Grass Creamery, Saturday afternoon, the directors decided to sell the property privately or publicly by June 10. Mr. H. V. Bastin, one of Lancaster's "hustlers" purchased the property for \$1500 and authorizes us to say that it will be run regularly and that if the farmers will stick to him he will make it pay them. He has gone to Elgin Illinois to gain better ideas of how to make a creamery pay.

Game Called At 2 p. m.

Memorial Service.

The Mary Walker Price Chapter of the U. D. C. will hold a memorial service on Thursday, June 3rd at the Court House at 2 o'clock, and a cordial invitation is extended to the entire community. Prof. A. H. Thormont, Dean of the Law Department of Central University, Danville, will deliver the address, attorney L. L. Walker, of this city, introducing the speaker of the occasion. Other features will be included to furnish an interesting and attractive programme.

Republican Notice.

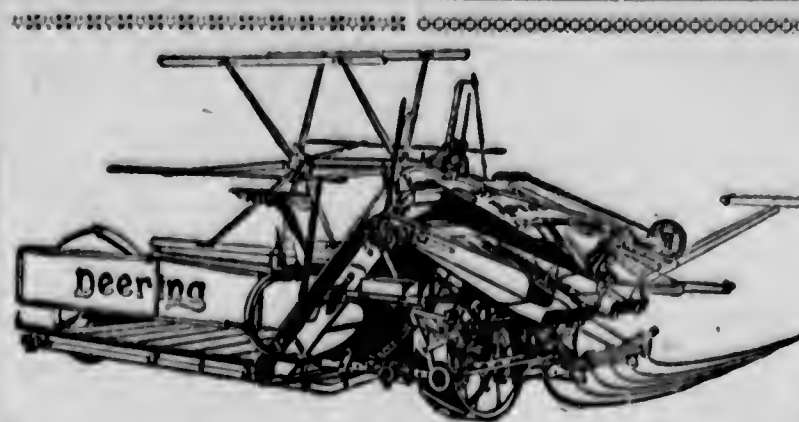

The Republican committee of Garrard county, is hereby called to meet in the county court room in Lancaster, Kentucky on Thursday, June 3rd, 1909 at 3 o'clock p. m. for the purpose of determining the manner in which nominations for county offices shall be made, or to make nominations if the candidates present so desire them to do. All Republicans are hereby urged to be present at said meeting. Any one who desires to become a candidate for any county office must be present in person at this meeting or be represented by some one else.

A. B. Kistridge, Chairman.
W. O. Mays, Secretary.

500 Base Ball Fans Witnessed The Hustonville-Lancaster Game.

The opening game of the Lancaster Base Ball Club was played Friday afternoon before a crowd of 500 lovers of the sport. All the stores in town were closed, which shows the interest that has been taken to make this the banner year for the club.

The management of the club wishes to apologize to the spectators for not having a more interesting game, and say that it was the only weak team ever sent out from Hustonville. The score in the first game was 19 to 1 in favor of Lancaster and that one was made on the only error made by the home team during that game. The second game was 20 to 5 in Lancaster's favor. The line up was: Lancaster: Watkins, p; Danciee, c; McRoberts, 1b; Burnside, 2b; Schaefer, 3b; Joseph, ss; Pumphrey, lf; Denny, cf; Ware, rf. Second game was the same line up except Anderson pitched. Watkins struck out 12 and Anderson's men. Hustonville's team was first game, Dunn, p; Barnett, c; Swope 1b; Hall, 2b; Stag, 3b; Giltsook, ss; Black lf; Cunningham, cf; Nail rf. The second game was the same except Carpenter pitched. Dunn struck out one and Carpenter two men.

Dr. B. S. Gowen.

With Dr. B. S. Gowen as president of New Mexico Normal University, the Board of Regents and the people of Las Vegas feel that they have the right man in the right place. Dr. Gowen has been at the head of the department of education in this institution, and has also been supervisor of the training school, hence his work is known, and there can be no question but that his elevation to the presidency is merited.

Dr. Gowen is a graduate of Yale and also of Clark University. He has the B. A. and the M. A. degrees from the former and the Ph. D. from the latter institution. He received one of the best fellowships at each university. At Yale he was one of the first four in a class of 200 men; he received the appointment of a philosophical oration, was elected to the Phi Beta Kappa Society, and received special two-year honors in philosophy. Since coming to the territory, Dr. Gowen has made a number of addresses (one before the New Mexico Educational Association) which have attracted much attention, and brought him into prominence in educational circles.—Ex.

The subject of the foregoing was well known here having taught at Garrard College, and has many friends here. We were a pupil of his and congratulate him on his success. The people of Las Vegas should count themselves most lucky in securing his services.

Mr and Mrs C. W. Anderson are rejoicing over the arrival of a fine boy, christened Fisher Herring.

Sunday School Convention.

The county Sunday School Convention will hold its annual meeting on May 29th at the Methodist church at Hyattsville. A cordial invitation is extended to all and they especially want a delegate from each school in the county.

Automobile Races.

The biggest auto race ever held in Kentucky will take place at trotting track, Lexington, Ky., beginning promptly at 2:00 p. m., Saturday May 29th. There will be one Motorcycle race and four races for Automobiles, one of which will be a race at fifty miles open to any automobile. Go and enjoy an afternoon of terrific speed contests and excitement.

Now A Minister.

Rev Clarence H. Poague, who will graduate at the Transylvania University, with the degree of A. M., June 10th, will be remembered here as one of the professors under Principal Milton Elliott, of Garrard College and a man of much learning. He has made a phenomenal record having completed the prescribed course since his matriculation on November 16th, a period of only six months. He has been called to the pastorate of the Christian Church at Junction City.

Before and After.

When the dozen saloons closed, Richmond owed \$22,000 of old debts including \$12,000 School Bonds outstanding and had but \$1,000 in sinking fund. Our Sinking Fund now contains \$6,000 we have paid off \$1,000 of the old debt, paid City Schools \$23,700 in past two years, as much as they received during the three years of 1903-4-5 have built a new street on Ironston Place at \$1,000, put down \$1,700 worth of concrete pavements, \$2,000 worth of fire equipment, and paid all other running expenses and yet did it all despite the loss in these two years of \$24,000 from saloons. Oiling streets, vitrified tile drains, modern electric lights at \$800 less yearly cost. There are 2,000 white and colored school children in Richmond outside of Madison Institute and Normal School.—Richmond Register.

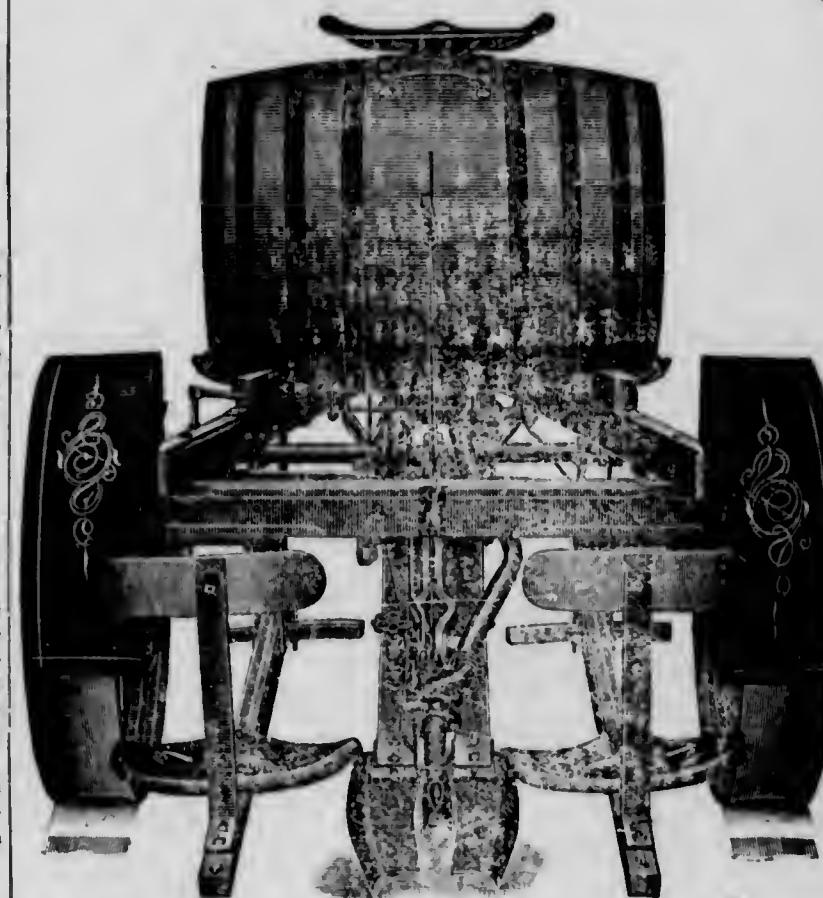

The Influence of a Fair.

Of course the prizes that are to be won at fairs and expositions make the contests more interesting to the farmers who enter their products. There's no denying this, but it is not the little money that they get that makes every man do his best to win the ribbons.

It is the friendly rivalry, the big profits that come from the effort to raise better crops and better livestock—the resulting increase in his income for the year—that makes Mr. Farmer start early in the spring to prepare exhibits for one or many of the classes in which premiums are offered.

Right now is the season when he begins actively to work out his crop plans and to select his exhibition livestock. The care this exhibitor uses in his farming and the prosperity which almost invariably results make their impressions on his neighbors and they adopt improved methods, which in time are adopted by other farmers of their community and thus the county fairs and the big State Fairs spread their good influence all over the State. Get ready for the Lancaster Fair on July 29-30-31th.

ANNOUNCEMENT.

To the Republican party of Garrard county: I am a candidate for the Republican nomination for County Attorney, and will appreciate your support.

B. D. Herndon.

The public, in some sections, has been misinformed in reference to the issues in the judicial primary election. It has been said that the victory of Sautley means a victory for the opponents of prohibition, that Owsley had the solid support of the prohibition element, and the fight was made strictly along these lines. The facts disprove these assertions. If Owsley had received the solid support, or even a majority of the prohibition or local option element he would have been nominated. The truth is the majority of the votes cast for Sautley were of that persuasion.

An attempt was made to inject that issue into the campaign but it failed. It was regarded as a Democratic campaign, free from a local issue, over which the Judge would have no control, except to instruct the grand jury and leave them to be advised by prosecuting attorneys C. A. Hardin and J. E. Robinson. It was known that Sautley had always instructed his jury to investigate all violations of the local option law, that he is temperate, honest and capable, that he really favors the principle of local option, and he announced, at Stanford, during the campaign, that he was opposed to open saloons.

Hon. R. H. Tomlinson, Senator Geo. T. Farria and Mr. J. O. Boyle have been mentioned as candidates for the Legislature, all of whom are good Democrats, and the first two named have served in that body with much credit to themselves and entire satisfaction to the people. A strong pressure is being brought to bear on Mr. Tomlinson to induce him to announce for the Democratic nomination, it being contended that conditions are such as to make him the logical candidate. He has held city and county offices, and served two terms in the legislature, with marked ability and distinction, always guarding the best interests of the people. He is an able lawyer, an eloquent and convincing speaker, which, together with his experience, make him well equipped for the place. He was never defeated, but an aggressive worker and a splendid organizer in political campaigns, and his friends do not fear defeat if he should enter the race.

Senator James H. McCreary, President of the Peace and Arbitration League, entertained that body, in Washington, and said, in part: "The sentiment of the people everywhere is for peace, and the feeling in favor of the settlement of international disagreements without war, and arbitration, is growing stronger every day. "It certainly is a source of pleasure to us all that our country took the lead in the first legislation to promote arbitration and in the first reference of an international disagreement to 'The Hague tribunal'—being the case between the United States and Mexico."

Mrs. Caroline Bartlett Crane, the noted lecturer on civic righteousness, has been sued for damages, by Dr. Witherspoon of Harrodsburg, on account of charges made by her in a lecture, concerning the poor house and farm of Mercer county, and his conduct as physician. This proves the truth of the Divine injunction, that

woman should not speak in public but should learn of her husband at home.

The Savannah News truthfully says: "The Democrats will occupy a splendid position in the next Congressional campaign, and even in the next Presidential campaign. The people want the tariff lowered. They want lower prices and they mean to have them. The cost of living and the profits of the tariff-protected trusts are too great."

It will be gratifying to the public to know that all indications point to a new era of prosperity in every department of trade and commerce throughout the country. Farmers are expecting abundant harvest and we will again have reason to exclaim, "Praise God from whom all blessings flow."

We will soon publish a statement of the financial condition of Garrard county, which will show such faithful and efficient work on the part of the County Judge, the magistrates and county attorney, J. E. Robinson, that the people will decide to let well enough alone, and make no change in November.

Judge M. C. Sautley, won for Circuit Judge of the Lincoln district, over Judge Sam Owsley by over 1,200. Judge Sautley is one of the ablest Jurist in the state and a fine gentleman with it.—Mt. Vernon Signal.

Fake Journalism is the bane of this generation, and reporters should be put under bond to investigate every report, that might effect the character or property of any one.

The Nicholasville Tribune, edited by U. W. Boner and J. L. Sowers, is four weeks old, yet it wears the most fashionable dress and talks well.

Lived 152 Years.

Wm. Parr—England's oldest man—marked the third time at 120, worked in the fields till 132 and lived 30 years longer. People should be youthful at 80. James Wright, of Spurlock, Ky., shows how to remain young. "I feel just like a 16-year-old boy," he writes, "after taking six bottles of Electric Bitters. For thirty years kidney trouble made life a burden, but the first bottle of this wonderful medicine convinced me I had found the greatest cure on earth." They're a godsend to weak, sickly rundown or old people. Try them, 50c at R. E. McRoberts. 1m

An Appeal For Homeless Children.

Now that the warm summer days are almost upon us, it is absolutely necessary to find country homes for the babies who are in the receiving home of the Kentucky Children's Home Society.

Every parent knows how essential it is that babies should be kept cool and comfortable in the summer and how important it is that they get good, pure milk. Their very lives depend upon it.

We have nine babies from two months old to a year and a half, and we earnestly hope to place each one in a good country home within the next few weeks. They are bright, sweet babies and will bring sunshine wherever they go.

There are thirteen boys and girls from eighteen months up to five years, attractive, happy little folks who would be easy to train. They are just at the age when children are most responsive to kindness and affection.

We also have two sisters, age ten and four, respectively, and their little brother aged seven, whom we would like to place in the same home if possible. They are as good children as we have ever had in the home, and are so strongly attached to each other that we would dislike to part them. However, if we cannot find a home for all three together, we would like to find some willing to take the sisters.

We also have larger children. We only place our children in homes where the moral and social atmosphere is of the best, and good references are always required.

Any one desiring to do a good work in the world and at the same time gain the truest pleasure will do well to apply for a child to The Kentucky Children's Home Society, 1086 Baxter Ave., Louisville, Ky.

General News.

Burglars broke into the post-office at Hells, Tex., dynamited the safe and escaped with about \$1,000.

After an absence of six months the bubonic plague has again made its appearance in Caracas. One case is officially under examination.

The Cumberland Presbyterian General Assembly at Bentonville, Ark., adopted strong resolutions in favor of prohibition.

Speculative prices for grain continued to soar on the Chicago Board of Trade, wheat, corn and oats advancing to new high record marks for the season.

Mrs. Louis Carsten cut the throats of her three children and then her own at the family home, near East-hampton, Conn. Two of the children are dead.

Helen Kelly Gould was granted an absolute divorce in New York from Frank J. Gould. Mrs. Gould is granted custody of their children for one portion of each year, and Mr. Gould is to have custody for the remaining portion.

A service in the memory of George Meredith, the novelist who died May 18, was held in Westminster Abbey and was attended by a large gathering of persons prominent in diplomatic, literary, political and artistic circles.

The General Assembly of the Southern Presbyterian Church prepared an appeal to President Taft, asking him to make representations to the Belgian Government that will insure a fair trial to the two missionaries who are to be tried in Congo Free State on the charge of libel.

Dispatches to Dun's Review indicate continued improvement in business conditions, particularly at the West, where manufacturers are active ly engaged. Some irregularity is noted in other sections of the country, although the general trend is toward distinct progress.

H. H. Rogers, a short time before his death, distributed a portion of his fortune among his four children. It is understood that he gave \$4,000,000 each to his son, H. H. Rogers, Jr., and to his three daughters, Mrs. W. E. Benjamin, Mrs. Urdan H. Broughton and Mrs. W. B. Coe. The remainder of his estate will be disposed of by his will.

Mrs. Caroline B. Crane, of Kalamazoo, Mich., employed by the State Board of Health to inspect the sanitary conditions that prevail in Kentucky cities, delivered an address at Frankfort in which she pictured the conditions in and around the capital city most unfavorable. The tennement district, the jail and Feeble Minded Institute came in for strictures from Mrs. Crane.

A jury in the Ohio county Circuit Court, at Hartford, Ky., brought in a verdict of \$5,000 for Dr. Westerfield, administrator of Roy Westerfield, against Capt. Peter Johnson, of Evansville, Ind. The towboat, Samuel, owned by Capt. Johnson, ran into a raft of logs on Green River last winter and Roy Westerfield and three other men were killed. Three more suits against Capt. Johnson are pending. Mr. Westerfield was a nephew of Mr. Jas. Hill, of this city.

Despite the fact hundreds of thousands of dollars have been spent in an endeavor to extinguish the fire burning for fifty years in the Lehigh Coal and Navigation Company's mine, at Summit Hill, Pa., the fire is now spreading toward the Spring Tunnel workings and thirty of the Reading Company's carpenters and masons have been sent from the Ashland district to aid in erecting concrete walls to check the fire, spread of the flames. Great quantities of sulphur lie around the sunken shafts and the work is dangerous. It may be necessary to fill the shafts with water.

Charles Kaiser, an Indian, son of Black Horse, a Washoe chief, was hanged in the State penitentiary of Nevada, for the murder of his wife. Five hundred Indians, reuniting the execution, are now in Carson City planning to hold a powwow. As the Indians are heavily armed, the body will be buried secretly with in the walls of the penitentiary and the State police will order the Indians to disperse. The Indians resent the interference of State authorities in their affairs, and declare it was their duty to hang Kaiser.

Sheriff Shipp, Deputy Sheriff Gibson and four other residents of Hamilton County, Tenn., were declared to be guilty of contempt of the Supreme Court of the United States, in combining in a conspiracy in 1905 to lynch a negro named Johnson, sentenced to death for criminal assault. Johnson was lynched after he had been granted an appeal by the Supreme Court. Sentence will be passed upon the six men next Tuesday week. The opinion of the court was handed down by Chief Justice Fuller. Justice Peckham prepared a dissenting opinion, which was concurred in by two other members of the court.

THREE IDEAL FARMS IN ONE.

The perfection of real estate, all that is beautiful and desirable in country life, including locality, soil and improvements, is embodied in a farm of 135 acres, adjoining the thriving town of Bryantsville, Ky., and near the famous Camp Dick Robinson farms, which sell at over \$100 per acre. There are three tracts, with dwellings and improvements on each, suitable for three families desiring to locate on adjoining farms; or, if bought by one party, two houses could be occupied by tobacco tenants. The best equipped barn in the county, is on the premises, having water supplied by a wind-mill. The floors are built as residence flooring, the stalls are large and well constructed, machinery for cutting feed being run by an engine.

Stock scales and a large tobacco barn are among other improvements. The land lies well and is of a high grade, well fenced, well watered, a portion of it being matted with blue grass, in gently undulating pastures. Most of the land has been kept in grass and will easily raise 1500 pounds of hemp, 1800 pounds of tobacco and 60 to 75 bushels of corn. Such soil is the basis of all value, and the large profit, which it yields on the investment, explains why capital is seeking real estate, it being not only the best but the safest investment. This, together with the fact that population is increasing, thereby insuring a continuance, of good prices for farm products, proves that good real estate will continue to advance in price.

Besides the intrinsic value of a home, the locality and surroundings render it more or less valuable. Good roads, good schools, churches and good morals are important factors, in determining the value of a farm, because they contribute to man's substantial happiness, which is the mainspring of human action and the object sought, in every section of our God-favored country. These elements enter largely into the attractiveness and, consequently, the value of this property. It lies on a splendid turnpike for a distance of about one mile, the community consists of the highest grade of citizenship, the people being moral, cultured and exceedingly hospitable. The residences are in sight of Bryantsville, which has a thriving bank, up-to-date merchants, a good school and a church of large membership, that town being about 9 miles from Lancaster, the county seat of Garrard County, on the Lexington pike. The enterprise of the citizens in that section is further manifested by the fact that they are preparing to establish a Graded School at Bryantsville, and if they succeed, which is almost certain, this property will advance from ten to twenty dollars on the acre, as property has done near Lancaster and other towns, where such schools have been established, keeping the money and the children at home, and giving them a good education. This picture is not overdrawn, and we invite those looking for a bargain, in a home, that has all the attractive and valuable features, to let us show it to them. This farm is also within 4 miles of a navigable stream, which is of greater advantage for markets than the same distance from a railroad, for it gives cheaper rates and better facilities for transportation to market of all farm products, and live stock can be shipped from one head up to a boat load, while coal and lumber can be purchased at less price. It is down grade to the river, and a good pike.

We positively believe that this land is worth \$100. per acre, and yet it is offered at \$90.00 per acre as a whole, if sold at once; however the entire farm is susceptible of an advantageous division into small tracts and we will divide it to suit purchaser and make price on what he wants according to location, improvements, quality and quantity.

Among others we also have a magnificent farm of 335 acres, high-class improvements, 8 miles of County seat and 4 1/2 miles of navigable stream, located on pike and 275 acres of it in blue-grass sod, none better in Kentucky. Price \$110.00 per acre.

More Opportunities.

Yes, we have them—farm lands—in different localities, off the pike and on the pike—improved and unimproved—50 acres—100 acres—200 acres—any number of acres you want—from \$35.00 per acre to \$100.00 per acre. We can suit you. Try us. All bargains of a lifetime. 500 acres extra good—266 acres superior land highly improved. 225 acres, extra good, near Paint Lick, fine residence and three tobacco barns. Our price is the owner's price. No excess contracts. If you want to buy a farm write us or come to see us.

Farm and Stock.

G. B. Swinebroad has refused \$50.00 for a week old heifer from one of his fine cows.

When chicks are two months old begin feeding them cracked corn, wheat and cut oats three times a day, keeping a superior brand of beef scrap, grit and charcoal in a hopper before them all the time.

The Danville Advocate says Monte Fox & Co., representing Jos. Stern & Son, New York, sold to E. Egan, of Chicago, and Arthur Stern, of New York, 600 sloop fed cattle weighing about 1,200 pounds at about 6 cents.

There is nothing like a good coat of whitewash for the interior of the poultry house, regardless of how the walls are made or finished. White-wash is a good eradicator of things objectionable about a poultry house, and it makes things look bright and clean. Apply it at least twice a year.

Mr. J. A. Masters, near Loyd has a sow that is 13 years old, has raised 26 litters of pigs and never less than nine from which he sold over \$2,000 worth of hogs besides furnishing meat for his family. We know this to be true because we have Mr. Masters word for it and he's a true hard working farmer and one of our best citizens.

It is reported that the Huntington Product and Feed Company, of Huntington, W. Va., has purchased the entire 1909 clip of pooled wool belonging to the Kentucky Wool Growers Association. The report says that there are about 400,000 pounds of wool in the pool and while the price is not stated it is said to be about 50 per cent. over last year's prices.

A Louisville firm is addressing cards to merchant all over the State, stating they are contracting for green steer hides during the month of May at 16 1/2 cents per pound. From June to January they are offering 19 cents per pound for heavy native steer hides. How does this compare with seven and eight cents per pound of last year? Three years ago the price ran up to 11 cents and farmers thought the price might be good.

The following receipt is worth a prominent place in every farmer's scrapbook, for ready reference, if it does what it says it will: A correspondent of Wallace's Farmer says he has cured "pig eating sows" by dosing them with common soda. He says commence the treatment about a week before farrowing, giving her two tablespoonfuls of soda every other day until three doses are given. He says this is also sure cure for chicken eating sows.

Painful Dehorning.
In the very young calf the horn button, or point that will ultimately develop into a horn, has scarcely any attachment to the skull, and may be felt as a small button embedded in the skin. In this early stage it may be easily removed with a sharp knife or a pair of curved scissors, and even then caustics should be applied to kill any remaining cell life belonging to this germ point; otherwise there may be some subsequent irregular horn growth, which is more or less of a disfigurement.

Spraying Potato Vines.
By the time the vines are five or six inches high spraying should begin. Begin with the Bordeaux mixture to make the vines blight-resistant, and at the same time the mixture used the poison can be put in to kill the bugs.

If the rains are not heavy and frequent, spraying once in from twelve to fourteen days is sufficient. If the rains are heavy and frequent the mixture should be applied oftener. During the month of August if the rains are frequent and the weather warm and muggy, apply the mixture after each rain, as those conditions are favorable for the development of blight. The mixture will make the vines resistant, but will not cure it if once it gets hold of the vines.

In applying the poison for the bug it has been customary to use one-half pound of Paris green to fifty gallons of the Bordeaux mixture. If the Paris green is used, devise some means to keep it stirred up, as it is inclined to settle to the bottom of the tank in which the solution is carried and does not do good work at first, but is strong from the bottom that it burns the leaves.

TO THE FARMERS OF GARRARD COUNTY.

I have bought the Lancaster Creamery, and shall take possession of same June 1st, next.

This purchase has been made not with an idea of speculation, but with the firm and steadfast resolution of making it a commercial success. To this end I have severed my connection with the Bastin Telephone Company, and from henceforth I shall devote my entire attention to the operation of the creamery. Of one thing be certain; **The Creamery Will Run Continuously In The Future.**

My policy shall be "give every patron a square deal," make the best possible grade of butter, and sell for the highest obtainable price.

I am now on a visit to Elgin, Ill., the city that has given its name to the highest priced butter on earth, for the purpose of studying the methods underlying their tremendous success. In this space I shall give you a report of that trip next week, as well as make further announcements as to the policy and aims of the Lancaster Creamery.

As soon as I return from Elgin, I shall make each of you a personal visit. We shall establish as many routes as possible, (these routes shall be permanent,) and I shall work and honest purpose and unbounded enthusiasm mean anything, success shall be ours.

I am gentlemen, yours for success,

HENLEY V. BASTIN.

NASAL CATARRH.

R. E. McRoberts sells the Great Remedy that Cures Mrs. Kerberg.

Here is a very simple yet wholly sincere statement of a Michigan woman, who was cured by using Hyomel—the no cure no pay remedy for catarrh, asthma, hay fever, croup, coughs and colds.

"A bad case of catarrh was cured for me by the use of Hyomel. The trouble affected my head, nose and eyes, and was very annoying and disagreeable, and the cure, from the use of Hyomel, was very gratifying. Hyomel has from me a strong recommendation and endorsement."—Mrs. E. Karberg, 213 Kingsley St., Ann Arbor, Mich., 10, 1908.

Thousands of just such letters are in existence, and thousands more would be but the desire to avoid publicity.

If you have catarrh, bestir yourself, and drive it out of your system. Kill the germs. You can do that easily if you use Hyomel (pronounced High-o-me.)

It is a dry, antiseptic and very pleasant air, that when inhaled, quickly relieves all forms of catarrhal inflammation, stops sneezing, hawking and blowing. The price for a complete outfit, including inhaler, is only \$1.00 at R. E. McRoberts.

Worth a Thought

Why do the Tin Plate Mills, the Shingle Mills, the Lumber Yards and all large factories use Swan Brand? Is this "Top and Veribest" Butcher Roofing? Why do they not use their own Manufacture? Simply because they know ready Roofing will last longer, cheaper in price and less expensive to lay. Write for price and samples. W. W. WITHERS, 226 E. Main St. Lexington, Ky.
